Super clean, well maintained Pueblo Style 3-bedroom, 2 full bath home. This home was originally designed for the developer but sold it to this one-time owner of the property. Special care was given to the site location since it has one of the largest lots on the street. The seller has maintained this property over the years and have continually updated, such as new carpet, freshly painted and newer kitchen appliances. Plenty of room in the backyard for pets and upstairs deck creates downstairs patio. Nice 1 car semi-finished garage with new garage door. Front yard is nicely landscaped with conservation in mind. Near schools, shopping, parks, and quick access to interstate.
